SECTION 4 FIRST AID MEASURES

CALL 1-877-740-5015

Skin: Remove contaminated clothing. Wash thoroughly with soap and water. Call a physician or poison control center if irritation develops.

Eyes: Remove contact lenses if any. Rinse eyes with water for 15 minutes. Get medical attention if irritation develops.

Inhalation: This material has a low vapor pressure and is not expected to present an inhalation hazard at ambient conditions. Move victim to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Keep victim quiet and warm. Call a poison control center or physician if symptoms persist.

Ingestion: NEVER give anything by mouth if victim is unconscious. Have victim rinse mouth thoroughly with water. DO NOT INDUCE VOMITING. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call the Poison Control Center at 1-877-740-5015.
SECTION 5
FIRE FIGHTING MEASURES
Extinguishing Media: Use dry chemical, CO2, water, or foam extinguisher.
Special Fire Fighting Procedures: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for fires in areas where chemicals are used or stored.
Unusual Fire and Explosion Hazards: Dense smoke may be generated while burning.

SECTION 6
ACCIDENTAL RELEASE MEASURES
Spill or Leak Procedures: Contain spill immediately. Do not allow spill to enter sewers or water ways. Absorb with appropriate inert material, such as sand or clay. Pick up large spills with vacuum equipment. Appropriate personal protective equipment cited in Section 8 should be worn during all clean-up operations.
